

Senna Extract Gummies

Product Information :

Pharmaceutical form : Tablet

Category : Dietary Supplements

Pack : -

Brand name : Healthiza Lifescience

Content : Senna Extract Gummies

Therapeutic Use : -

Product Description :

What are Senna Extract Gummies?

Senna extract gummies are a type of gummy candy infused with the extract of the Senna plant. Senna is a natural herb that has been traditionally used for its medicinal properties, particularly in promoting healthy digestion and relieving occasional constipation. The extract of the Senna plant, derived from its leaves and pods, contains compounds called sennosides. These compounds have a laxative effect on the body by stimulating the muscles in the intestines, promoting bowel movements, and helping to alleviate constipation. These gummies provide a convenient and enjoyable way to consume Senna for those who may prefer a more pleasant and palatable option compared to traditional Senna preparations like teas or tablets. The gummies are typically formulated with Senna extract, along with other ingredients, to create a tasty treat. It's important to note that while these supplements can be effective in relieving occasional constipation, they should be used as directed and in moderation.

How they works?

Senna extract gummies work by harnessing the properties of the Senna plant to promote

healthy digestion and relieve occasional constipation. The key component in these gummies is the extract derived from the leaves and pods of the Senna plant. The active compounds in Senna extract, known as sennosides, have a laxative effect on the body. When consumed, these compounds stimulate the muscles in the intestines, increasing their contractions. This stimulation helps to move stool through the digestive tract, promoting bowel movements and relieving constipation. Once ingested, the Senna extract in gummy form is broken down and absorbed by the body. The sennosides then interact with receptors in the colon, triggering the release of water and electrolytes into the intestines. This softens the stool and adds bulk, making it easier to pass.

Supplement Benefits

Senna extract gummies offer several potential benefits for those experiencing occasional constipation or seeking digestive support. Here are some of the benefits associated with Senna extract gummies:

Relieves occasional constipation:

Senna extract contains compounds that stimulate the muscles in the intestines, promoting bowel movements and providing relief from occasional constipation.

Natural and gentle:

Senna is derived from a natural herb, making it a more gentle and plant-based alternative to some other laxatives. It can provide effective relief without causing harsh or uncomfortable side effects.

Convenient and tasty:

These gummies offer a convenient and enjoyable way to incorporate Senna into your routine. They are easy to consume and often come in delicious flavours, making them a pleasant option for those who may have difficulty swallowing tablets or prefer a more palatable experience.

Promotes healthy digestion:

By supporting regular bowel movements, They can help maintain overall digestive health. They aid in clearing waste from the body and may contribute to a more comfortable and balanced digestive system.

Non-habit forming:

When used as directed, Senna extract gummies are typically non-habit forming. They can provide temporary relief from constipation without leading to dependency or long-term reliance. As with any supplement or laxative, it is important to follow the recommended dosage and consult with a healthcare professional before use, particularly if you have any underlying health conditions or are taking other medications.

Contact Senna Extract Gummies Manufacturer

These gummies works as a laxative and support bowel movement. It is a great supplement to provide relief from occasional constipation. We, as a leading Senna extract gummies manufacturer in India, understands the importance of healthy body. That is why we have developed gummies supplement enriched with natural herbs. You can daily consume these tasty gummies with proven benefits.
