**Pack :** 1x1vial

**Brand name :** Remdesivir

**Content :** REMDESIVIR-100MG

**Therapeutic Use :** To treat coronavirus disease  
**COVID-19 infection**

## Product Description :

---

### What is Remdesivir injection?

Remdesivir injection is used to treat coronavirus disease 2019 (COVID-19 infection) in hospitalized adults and children 12 years of age and older who weigh at least 88 pounds (40 kg). Remdesivir belongs to the antiviral drug class. It functions by preventing the virus from spreading throughout the body.

### How To Use

- Remdesivir is available as a solution (liquid) and as a powder that must be combined with liquid and infused (slowly injected) into a vein by a doctor or nurse in a hospital for over 30 to 120 minutes.
- It's normally given once a day for five to ten days. Your treatment duration is determined by how effectively your body responds to the drug.

### Precautions - Remdesivir Injection

Before starting remdesivir, you should consult your doctor.

- If you are allergic to remdesivir, any other drugs, or any of the ingredients in remdesivir injection, notify your doctor.
- Tell your doctor about any additional drugs, vitamins, nutritional supplements, or herbal products you're taking or planning to use. Your doctor may need to adjust your prescription dosages or keep a close eye on you for side effects.
- If you have or have previously had liver or kidney disease, tell your doctor.
- If you are pregnant, planning to become pregnant, or breastfeeding, notify your doctor.

#### Side Effects of Remdesivir

- While you are receiving the Remdesivir Injection, a doctor or nurse will keep a close eye on you.
- If you experience any of the following symptoms during or after the infusion, contact your doctor or nurse right away: chills or shivering, nausea, vomiting, sweating, dizziness when standing up, rash, wheezing or shortness of breath, rapid heartbeat, or swelling of the face, throat, tongue, lips, or eyes.
- If you have these adverse effects, your doctor may need to slow down or stop your infusion. If any of these symptoms are severe or do not go away, contact your doctor

#### Remdesivir Injection Supplier

Healthiza is one of the leading Remdesivir Injection supplier and manufacturer, offering the best quality medicine globally through a validated cold chain secure shipment process. We use this process to manufacture, store and deliver medicines at a very specific temperature. Customers can avail of this premium quality pharma product at an affordable price from us.
