## Product Description :

---

### What are Hydroxyurea Capsules?

Hydroxyurea Capsules are used to treat a variety of cancers as well as to prevent painful periods related to sickle cell anaemia. It can also be used to treat a variety of other ailments. It's sometimes combined with other drugs as part of a chemotherapy treatment plan.

#### User Direction For Hydroxyurea

- Take Hydroxyurea capsules with a glass of water, and swallow the entire capsule. It doesn't matter if you take them with or without food.
- It should not be broken, crushed, or chewed. Hydroxyurea Capsules are normally taken every day at the same time.
- Hands should be washed before and after using the medicine packaging.

#### Hydroxyurea Capsules Benefits

## **In the case of head and neck cancer,**

- Cancer of the mouth, nose, sinuses, or throat is classified as head and neck cancer. Hydroxyurea Capsules destroy or slow cancer cell proliferation, as well as prevent cancer cell multiplication. It's a powerful and poisonous medicine. While undergoing this treatment, you should stop drinking or smoking and drink enough water to stay hydrated.

### **How Hydroxyurea Works**

Hydroxyurea Capsules work in cancer by inhibiting an enzyme called ribonucleotide reductase, which is necessary for DNA synthesis. This stops cancer cells from reproducing and developing. It works in sickle cell disease by raising the levels of foetal haemoglobin (HbF) in red blood cells (RBCs). This increases blood flow and guards against problems like painful sickle cell episodes by allowing RBCs to return to their original shape.

### **Side Effect Of Hydroxyurea Capsules**

- The majorities of side effects are minor and will go away as your body adapts to the medication.
- It is possible to have nausea, vomiting, loss of appetite, mouth sores, diarrhoea, or constipation.
- If you experience any serious side effects, such as ulcers, darkened-blackened-reddened skin, or mood disorders, contact your doctor straight away.
- This medicine rarely causes a severe allergic reaction. However, if you detect any symptoms of a major allergic response, such as a rash, itching/swelling, extreme dizziness, or problems breathing, seek medical treatment right away.
- Consult the doctor if you have any other side effects not listed above.

### **Some Tips For Using Hydroxyurea**

- Take it every day at the same time, with or without food.
- While using Hydroxyurea, it is important to stay hydrated and drink lots of fluids.
- Do not miss any doses and follow your doctor's instructions to the letter.

- To avoid pregnancy while using this drug, use an effective birth control technique.
- Regular blood tests may be ordered by your doctor to evaluate your electrolyte levels, liver function, and blood cell count.
