Product Information :

Pharmaceutical form : Tablet

Category : Anti Cancer

Pack : 1x30/Cap

Brand name : Hepcinat Tablet

Content : Sofosbuvir (400mg)

Therapeutic Use : Chronic hepatitis C virus (HCV) infection

Product Description :

What is Hepcinat Tablet?

Hepcinat Tablet is an antiviral medicine. It is used in combination with other drugs to treat chronic hepatitis C virus (HCV) infection. It's also utilized in patients with liver cancer and hepatitis C who are about to get a liver transplant. This medication reduces the chances of infection recurrence following the transplant. It works by reducing the amount of hepatitis C virus in the body and eliminating it from the blood over time. Patients with a known history of hepatitis B infection should avoid taking Hepcinat Tablet.

Hepcinat Tablet - How To Use

Hepcinat Tablet should be given according to your doctor's instructions for dosage and duration. Even if you feel good, do not miss any doses and complete the entire course of treatment. It should be given with food and at a specified time. If you forget to take a dose, do so as soon as possible. However, if your next dose is approaching, skip the missing dose and return to your normal schedule. Do not take two doses.

Hepcinat Tablet Benefits

- The HCV virus is prevented from growing in your body with Hepcinat Tablet. It aids in the control of infection and improves the immune system's performance. This tablet reduces your risk of problems and enhances your overall quality of life.
- This medication is always given with other antiretroviral medications. It is not a cure for HCV infection and should not be used to eliminate it.
- It is essential that you use this medication exactly as directed by your doctor, including the dosage. The effectiveness of the medicine is substantially enhanced when all doses are taken in the correct amounts and at the correct times.

Precautions for Hepcinat Tablet

- Always follow your doctor's instructions when taking Hepcinat. If you have difficulties with your liver, kidneys, or heart, or if you're pregnant or breastfeeding, tell your doctor. It is not suggested for youngsters under the age of three.
- Hepcinat Tablet should be taken exactly as prescribed by your doctor. Do not consume more or less than what is recommended. To prevent the illness from spreading, finish the course of medication. Any negative affects should be reported to your doctor immediately. While using this medication, your liver function must be closely monitored.
- You should tell your doctor if you are allergic to any of the ingredients in Hepcinat Tablet, if you have any other allergies, if you are taking any prescription or non-prescription drugs, or if you have liver or kidney problems before taking this medication. You are pregnant, planning to become pregnant, or nursing a baby if you are under the age of 18.
- The doctor should determine the dosage depending on age, medical history, and present condition. The standard dose for people with chronic hepatitis C is 400 mg administered once a day orally. The data presented here is based on the medicine's salt content. The medicine's uses and effects may differ from one person to the next.

Side Effects of Hepcinat Tablet

The majorities of side effects are minor and will go away as your body adapts to the medication. This medicine may generate a variety of adverse effects, both minor and severe. Before beginning therapy, talk to your doctor about the risks and advantages of this
