

Thiocolchicoside 4 mg Capsule

Product Information :

Pharmaceutical form : Capsule

Category : Prescription Medicine

Pack : 1x10

Brand name : Thiocolchicoside

Content : Thiocolchicoside 4 mg Capsule

Therapeutic Use : Muscle relaxation

Product Description :

What is Thiocolchicoside 4 mg Capsule?

Thiocolchicoside 4 mg Capsule is a medicine primarily used in the treatment to reduce and relieve pain due to muscle spasms (painful muscular contractions) related to degenerative vertebral problems, torticollis (neck muscle cramps), upper and lower back pains.

How to Use Thiocolchicoside

- Swallow the Thiocolchicoside Capsule as a whole with a glass of water.
- Do not chew, crush, or break this drug; it must be taken with food.
- It should be taken as prescribed by doctor.

Benefit - Thiocolchicoside Capsule

Thiocolchicoside capsule is used in the treatment of pain due to muscle spasms. It contains Thiocolchicoside. It is a muscle relaxant that acts on the spinal cord and brain's centres. This decreases muscle stiffness and enhances muscle mobility, which relieves muscle spasm discomfort.

Precaution - Thiocolchicoside 4 mg Capsule

- If you have any of the following conditions: high blood pressure, diabetes, stomach problems, asthma, muscular hypotonia (low muscle tone), flaccid paresis, autoimmune illnesses, or a smoking habit, tell your doctor.
- If you have high cholesterol, chickenpox, Lapp lactase deficiency, glucose-galactose malabsorption, G-6-PD deficiency, fits, or blood clotting disorders, please consult your doctor before starting Thiocolchicoside Capsule.
- Unless otherwise directed, do not use any other NSAIDs for pain relief while taking Thiocolchicoside 4 mg Capsule.
- If you have stomach pain or any evidence of bleeding in the intestines or stomach, such as blood in your stools, stop accepting it and consult your doctor right away.
- Pregnant and breastfeeding women should avoid using it. It may induce dizziness and drowsiness, so only drive if you are fully awake and attentive.
- If you're taking Thiocolchicoside Capsule, don't drink alcohol. It is not suggested for use in children because its safety and efficacy have not been shown.

Side Effects of Thiocolchicoside

The majorities of side effects are minor and will go away as your body adapts to the medication. If they don't go away or you're concerned about them, see your doctor. Some of the common side effects are given below

- Nausea
- Vomiting
- stomach ache
- Diarrhoea
- Appetite loss.
- Heartburn

Some Tips For Thiocolchicoside Capsule

- Thiocolchicoside 4 mg Capsule relieves muscle rigidity, tension, and stiffness (spasticity), which can be caused by a variety of neurological system disorders.
- It can be taken with or without food, as well as with a glass of milk.
- It can make you feel dizzy or sleepy. Do not drive a vehicle or do anything else that requires attention until you have a better understanding of how it affects you.
- When using Thiocolchicoside, avoid drinking alcohol because it can cause drowsiness.
- If you have a pregnancy, planning to conceive, or are breastfeeding, tell your doctor.
- If you've been taking it for a long time, don't stop taking it without first consulting your doctor.
